

More praise from our customers! PFERD chain saw sharpeners acclaimed by forestry practitioners!

The following is a verbatim quote from the Eberswalde College of Applied Sciences, Department of Forest Botany:

"... we were pleasantly surprised upon receiving your assortment of chain saw files, chain saw sharpeners, and depth gauge files. [...] These tools have a very long service life, even when frequently used. The chain saw sharpeners were new to us but soon proved an indispensable tool. We have emphasized the excellent quality of your products in our academic practice seminars and apprentice training."

We are pleased to win such praise, which can only reinforce our dedication to providing premium-grade forestry tools.
