

# Colour coding system for POLIFAN<sup>®</sup>-wheels

The colour code assists you in finding the right tool. Our range comprises four product grades, adapted to the broad diversity of requirement combinations encountered in today's grinding processes.

## Dark-blue: Type Z

The POLIFAN<sup>®</sup>-Type used for aggressive work and heavy-duty applications.

## Light-blue: Type Z-Forte

The POLIFAN<sup>®</sup>-Type suited for universal jobs at maximum stock removal rates.

## Dark-brown: Type A

The POLIFAN<sup>®</sup>-Type designed for universal use on all materials.

## Light-brown: Type A-Forte

The POLIFAN<sup>®</sup>-Type for cool cutting action on difficult to cut and adverse thermal conductive materials.

To find out whether you are using the right product type for your grinding application, please ask for our POLIFAN<sup>®</sup> brochure.
